Summary

I am a self-taught UI Developer specializing in building responsive web applications. Currently, I serve as a UI Developer for Maxpro Technologies Private Limited, where I leverage my skills in creating intuitive and user-friendly interfaces. My passion for continuous learning and adapting to new technologies enables me to deliver high-quality solutions that meet and exceed client expectations.

Experience

Maxpro Technologies Private Limited | Chennai

UI Developer | 12/2021 - Present

Successfully completed over **15+** projects, highlighting a few of them below.

- Developed the User Interface for the **Midigi Learner** platform and created intuitive Admin and Tutor Portals using HTML, CSS, JavaScript, Bootstrap, jQuery, and Radzen Blazor.
- Crafted the Admin Dashboard for the **TamilNadu Farmer Producer Organizations (FPO)** with HTML, CSS, JavaScript, Bootstrap, jQuery, and Radzen Blazor.
- Revamped the eCommerce website for **Indiashoppe** using an eCommerce template, customizing it according to the client's needs.
- Expertly designed the User Interface for **NCC Codification** and **NCC Formworks**, employing HTML, CSS, JavaScript, Bootstrap, jQuery, and Radzen Blazor technologies to create seamless and intuitive experiences.
- Tailored the **Zoomlo PhotosApp admin** website, customizing an Admin template to meet the client's specific requirements.
- Utilized **Chart.js** and **ApexCharts** in various projects to enhance data visualization.
- Integrated various jQuery plugins, including Select2 dropdown, Spinwheel, SlimScroll, and jqZoom, to enhance functionality.
- Built the Admin Dashboard UI for **Shrinithi Insurance Broking Private Limited** using HTML, CSS, and Mudblazor.
- Developed Email Templates for Shrinithi Capital, Decan Capital Finance, Indiashoppe Invoice, Nagarjuna Construction Company (NCC), and Zoomlo.
